

Academic System -- Fully Flexible Credit System (FFCS)

VIT Bhopal University -- Academic Office

Chapter 1 -- Fully Flexible Credit System

1.1 Under the Fully Flexible Credit System (FFCS), a student prepares their own timetable each semester by choosing their courses, faculty, and class timings.

1.2 FFCS offers all standard courses of a programme in addition to future-ready courses available through the Programme Elective Basket, designed to meet industry requirements.

1.3 Salient features of FFCS include a balanced curriculum spanning engineering, science, humanities, and management; ample opportunities for inter-disciplinary courses; research experience opportunities at the undergraduate level; a Major / Minor / Honours value-addition option; and a branch-change option in B.Tech. at the end of the first year.

Chapter 2 -- Registration Numbers

2.1 Each student's registration number begins with a batch/branch prefix followed by a unique per-student number -- for example, "23BCE" identifies a B.Tech Computer Science and Engineering (BCE) student admitted in the 2023 batch, with a full registration number such as 23BCE11700 belonging to one specific student in that batch and branch.

2.2 For a standard 4-year B.Tech programme, the batch-year prefix corresponds to an expected passout year four years later -- a 2023-batch ("23") student's expected passout year is 2027.
