Chapter 1 -- Fully Flexible Credit System

1.1 Under the Fully Flexible Credit System (FFCS), a student prepares their own timetable each semester by choosing their courses, faculty, and class timings.

1.2 FFCS offers all standard courses of a programme in addition to future-ready courses available through the Programme Elective Basket, designed to meet industry requirements.

1.3 Salient features of FFCS include a balanced curriculum spanning engineering, science, humanities, and management; ample opportunities for inter-disciplinary courses; research experience opportunities at the undergraduate level; a Major / Minor / Honours value-addition option; and a branch-change option in B.Tech. at the end of the first year.
