VIT Bhopal Central Library

Chapter 1 -- Central Library Facilities

1.1 The VIT Bhopal Central Library is spread across two floors and includes a Reference Section and a Reading Section, protected by fire alarm, CCTV, and a flap barrier entry system.

1.2 The library subscribes to national and international journals in both electronic and print form, and holds reference and textbooks, e-books, and non-book materials covering Basic Sciences, Engineering and Technology, Architecture, Aeronautical and Aerospace, Biotechnology, Languages, Fashion Technology, Humanities, Social Sciences, and Management.

1.3 The library provides a Digital Library, a video conferencing facility, and other e-learning resources initiated by the Government of India.

1.4 The library is fully automated using Koha library management software (KOHA 19.05), with RFID technology enabling self-issue and self-return kiosks, WEB-OPAC (Online Public Access Catalogue), biometric access, and an online renewal facility.
