

On-Duty (OD) Leave

VIT Bhopal University -- B.Tech Computer Science and Engineering (BCE)

Chapter 1 -- Requesting On-Duty Leave

1.1 On-Duty (OD) leave may be granted to students participating in official, university-recognized events such as technical fests, sports competitions, hackathons, or other sanctioned activities.

1.2 Students in the B.Tech Computer Science and Engineering (BCE) programme must submit OD leave requests by email to pc.bce@vitbhopal.ac.in.

1.3 A cap of 5 ODs applies per student per semester; the cap renews each semester.

Chapter 2 -- Escalation Path

2.1 If a student's OD leave request or related issue is not resolved after emailing their Program Chair (PC) -- for BCE, pc.bce@vitbhopal.ac.in -- the student may escalate the matter to the Controller of Examinations (COE).

2.2 If the issue remains unresolved after escalation to the COE, the student may escalate further to the Dean of Academics, who is the final authority in this escalation chain.

2.3 This escalation order is general across programmes. PC contact addresses for branches other than BCE are not confirmed in the source material available to this corpus and are out of scope here.

Chapter 3 -- OD Leave vs. Leaving Campus

3.1 On-Duty (OD) approval is an attendance-exemption mechanism only: it marks a student present for a given time slot despite a legitimate absence, such as attending an approved event. OD approval by itself does not authorize a hosteler to physically leave campus.

3.2 A hosteler who needs to physically leave campus -- including to attend an event already approved for OD -- must separately obtain a gate pass through their Proctor and the hostel office. See [hostel_facilities.pdf](#) Chapter 6 for that process.

3.3 These are two independent processes with different approvers: OD is approved by the Program Chair (PC) for attendance purposes; a gate pass is approved by the Proctor for physical campus exit. A student attending an off-campus event may need both.
